ONLY A SAMPLE

As an example of the lax methods of dealing with the facts adopted by the Leader in putting forth campaign "arguments" against the present city council, the following is a sample: "The legal formalities required by the court in the matter of the annexation of the Marrs addition were complied with before February 1, and if the city council had acted when it should have acted, the property in this addition would be taxed this year."

If the editor of the Leader had taken the trouble to look this matter up, instead of draw-"arguments," he would have discovered that the petition for the annexation of the addition have them.

was granted by Judge Parker on February 23, 1907, and that on March 5 the ordinance admitting the addition was past by the council. The council, however, could not act until after the petition had been granted by the court. And the court acted as soon as possible after the publication of the official notice.

Other "arguments" of the Leader are of like veracity. The use of such methods shows the lengths to which the Democratic machine has been driven.

AN INCONTROVERTIBLE FACT

The fact remains, that, under the present administration, taxes have been reduced from twenty mills to fifteen, and for the first time in Vinita's history the property of the big property-owners has been assessed at something like its real value. This never happened under the rule of the Democratic machine, for the Democratic machine is composed of the big property-owners.
